COURSEWORK

UNDERGRADUATE

Data Structures Algorithms
Object Oriented Programming
Operating System
Web Development
Computer Networks

SKILLS

PROGRAMMING

Experienced:

C

C++

Python

Intermediate:

HTML

CSS

JavaScript

Bootstrap

NodeJS

Git/Github

Familiar:

React

CERTIFICATES

CODING BLOCKS

Competitive Coding
Full-Stack Web development

EXPERIENCE

NETCLAN INC. | WEB DEVELOPMENT INTERN

March 2022 – Aug 2022 | Virtual

- Worked collaboratively with the design team to transform wire-frames and mock-ups into responsive, user-friendly web pages using HTML, CSS, and JavaScript.
- Developed and maintained websites using front-end technologies, including React, AngularJS.

THE SPARKS FOUNDATION | WEB DEVELOPMENT INTERN

March 2022 – Aug 2022 | Virtual

- Participated in a web development internship program aimed at providing students with practical experience and tasks.
- Task 1 involved developing a basic banking website, focusing on creating essential features such as user authentication, account management, and transaction processing.
- Task 2 focused on developing a Payment Gateway Interaction with the Customer, integrating payment processing capabilities into the website.

RALETTA TECHNOLOGY PVT LTD | WORDPRESS DEVELOPER

Oct 2021– Jan 2022 | Virtual

- Assisted in the development and maintenance of WordPress websites using PHP, HTML, CSS, and JavaScript.
- Gained hands-on experience in developing custom WordPress themes and plugins, optimizing website performance, and implementing best practices for search engine optimization (SEO).

PROJECTS

MESSBOX-REAL TIME CHAT APPLICATION USING REACT JS. </>

- Developed a real-time chat application using **React.js** and **Sass** for UI components.
- Utilized **Firebase** for backend services and **Netlify** for hosting the application.
- Incorporated features such as joining different chat rooms, sending messages instantly, and displaying online and active users.

REAL ESTATE WEBSITE USING REACT JS AND TAILWIND CSS </>

- Developed a real estate website utilizing **React.js** and **Tailwind CSS** to create a visually appealing and user-friendly interface.
- Implemented key features required for a real estate website, including property listings, search functionality, and property details pages.

ALGORITHM VISUALIZER </>

- Developed a responsive web application to visualize sorting algorithms, aiding students in understanding and visualizing various algorithms.
- Implemented a Sorting Visualizer and Graph Visualizer feature that demonstrates the step-by-step process of visual representation of data structures.
- Utilized **HTML**, **CSS**, and **JavaScript** for front-end development to build the user interface and interactive components.
